Contents

No. 1 (February 2000)

PAGE

Original articles

Effects of sodium fertilizers and supplements on milk production and mammary gland health C. J. C. PHILLIPS, P. C. CHIY, D. R. ARNEY and O. KÄRT 1

Effects of morphine and naloxone on the release of oxytocin and on milk ejection in dairy cows V. TANČIN, W.-D. KRAETZL and D. SCHAMS . 13

Heterogeneity of cationic amino acid transport systems in mouse mammary gland and their regulation by lactogenic hormones R. SHARMA and V. K. KANSAL 21

High-pressure treatment of milk: effects on casein micelle structure and on enzymic coagulation E. C. NEEDS, R. A. STENNING, A. L. GILL, V. FERRAGU and G. T. RICH 31

Purification of goat β-lactoglobulin from whey by an ultrafiltration membrane enzymic reactor F. SANNIER, S. BORDENAVE and J. M. PIOT . . . 43

Angiotensin I-converting enzyme inhibitory properties of whey protein digests: concentration and characterization of active peptides A. PIHLANTO-LEPPÄLÄ, P. KOSKINEN, K. PIILOLA and H. KORHONEN . 53

Inability of dairy propionibacteria to grow in milk from low inocula P. PIVETEAU, S. CONDON and T. M. COGAN 65

Physicochemical, molecular and immunological characterization of camel calf rennet: a comparison with buffalo rennet E. I. ELEGAMY . . . 73

Method of quantifying the loss of acidification activity of lactic acid starters during freezing and frozen storage F. FONSECA, C. BÉAL and G. CORRIEU 83

Application of capillary electrophoresis to the characterization of processed cheeses B. MIRALLES, M. RAMOS and L. AMIGO 91

Short communications

Ultrasound technique for measuring mammary cistern size of dairy ewes A. NUDDA, G. PULINA, R. VALLEBELLA, R. BENCINI and G. ENNE . 101

Expression polymorphism of κ-casein gene in Holstein cows G. ROBITAILLE and D. PETITCLERC. 107

Distribution of nitrogen in goats' milk and use of capillary electrophoresis to determine casein fractions A. GARCÍA-RUIZ, R. LÓPEZ-FANDIÑO, L. LOZADA, J. FONTECHA, M. J. FRAGA and M. JUÁREZ 113

Microbial resistance of caseinate films crosslinked by gamma irradiation M. RESSOUANY, C. VACHON and M. LACROIX 119

In vitro digestion of caseinophosphopeptide–iron complex N. AÎT-OUKHATAR, S. BOUHALLAB, F. BUREAU, P. ARHAN, J.-L. MAUBOIS and D. L. BOUGLÉ 125

Contents

Influence of ions on growth and production of exopolysaccharides by *Lactobacillus delbrueckii* subsp. *bulgaricus* NCFB 2772 G. J. Grobben, I. C. Boels, J. Sikkema, M. R. Smith and J. A. M. De Bont . . 131

No. 2 (May 2000)

Original articles

Effects of supplementation of dairy cattle with fish oil on silage intake, milk yield and milk composition T. W. J. Keady, C. S. Mayne and D. A. Fitzpatrick 137

Mammary infection with *Staphylococcus aureus* in cows: progress from inoculation to chronic infection and its detection E. Shoshani, G. Leitner, B. Hanochi, A. Saran, N. Y. Shpigel and A. Berman . . 155

Simulation analysis of substrate utilization in the mammary gland of lactating cows G. G. Cherepanov, A. Danfær and J. P. Cant 171

Effects of yeast expressed recombinant interleukin-2 and interferon-γ on physiological changes in bovine mammary glands and on bactericidal activity of neutrophils D. N. Wedlock, E. E. Doolin, N. A. Parlane, S. J. Lacy-Hulbert, M. W. Woolford and B. M. Buddle . . . 189

Effect of storage at 4 °C on the physicochemical and renneting properties of milk: a comparison of caprine, ovine and bovine milks K. Raynal and F. Remeuf 199

Capillary electrophoresis characterization of the casein fraction of cheeses made from cows', ewes' and goats' milks E. Molina, M. de Frutos and M. Ramos 209

Characterization of genetic polymorphism in the goat β-lactoglobulin gene R. N. Pena, A. Sánchez and J. M. Folcha 217

Stability of vitamins during the storage of liquid infant milks S. Albalá-Hurtado, M. T. Veciana-Nogués, E. Riera-Valls, A. Mariné-Font and M. C. Vidal-Carou 225

Accumulation of casein-derived peptides during the growth of proteinase-positive strains of *Lactococcus lactis* in milk: their contribution to subsequent bacterial growth is impaired by their internal transport C. Foucaud and V. Juillard 233

Fatty acid composition and freeze-thaw resistance in lactobacilli A. Gómez Zavaglia, E. A. Disalvo and G. L. De Antoni 241

Chemiluminescence of bovine polymorphonuclear leucocytes during the periparturient period and relation with metabolic markers and bovine pregnancy-associated glycoprotein D. Hoeben, E. Monfardini, G. Opsomer, C. Burvenich, H. Dosogne, A. de Kruif and J.-F. Beckers 249

Autolysis and related proteolysis in Swiss cheese for two *Lactobacillus helveticus* strains F. Valence, S.-M. Deutsch, R. Richoux, V. Gagnaire and S. Lortal 261

Odour-impact compounds of Gorgonzola cheese L. Moio, P. Piombino and F. Addeo 273

Short communications

Milk whey protein concentration and mRNA associated with β-lactoglobulin phenotype C. G. Prosser, S.-A. Turner, R. D. McLaren, B. Langley, P. J. L'huiller, P. Molan and M. J. Auldist 287

κ-Casein and β-casein alleles in crossbred Zebu cattle from India using polymerase chain reaction and sequence-specific oligonucleotide probes S. Malik, S. Kumar and R. Rani 295

Effect of somatic milk count and polymorphonuclear leucocyte content of milk on composition and proteolysis during ripening of Swiss-type cheese S. Cooney, D. Tiernan, P. Joyce and A. L. Kelly 301

No. 3 (August 2000)

Original articles

Changes in cow teat tissue created by two types of milking cluster J. E. Hillerton, I. Ohnstad, J. R. Baines and K. A. Leach . . . 309

Effect of teatcup liner tension on teat canal keratin and teat condition in cows A. V. Capuco, D. L. Wood and J. W. Quast 319

Comparison of heat and pressure treatments of skim milk, fortified with whey protein concentrate, for set yogurt preparation: effects on milk proteins and gel structure E. C. Needs, M. Capellas, A. P. Bland, P. Manoj, D. MacDougal and G. Paul 329

Chromatographic characterization of ovine κ-casein macropeptide F. J. Moreno, I. Recio, A. Olano and R. López-Fandiño 349

Mineral and casein equilibria in milk: effects of added salts and calcium-chelating agents P. Udabage, I. R. McKinnon and M.-A. Augustin . 361

Flavour sulphides are produced from methionione by two different pathways by *Geotrichum candidum* Y. Demarigny, C. Berger, N. Desmasures, M. Gueguen and H. E. Spinnler 371

DNA fingerprinting of thermophilic lactic acid bacteria using repetitive sequence-based polymerase chain reaction P. J. De Urrazza, A. Gómez-Zavaglia, M. E. Lozano, V. Romanowski and G. L. De Antoni . . 381

Coagulating and lipolytic activities of artisanal lamb rennet pastes M. Bustamente, F. Chávarri, A. Santisteban, G. Ceballos, I. Hernández, M. J. Miguélez, I. Aranburu, L. J. R. Barrón, M. Virto and M. Renobales. 393

Standardized reaction times used to describe the mechanism of enzyme-induced gelation in whey protein systems R. Ipsen, J. Otte, S. B. Lomholt and K. B. Qvist 403

Rheological properties of milk gels formed by a combination of rennet and glucono-δ-lactone J. A. Lucey, M. Tamehana, H. Singh and P. A. Munro 415

Short communications

Relatedness of *Staphylococcus aureus* isolates from bovine mammary gland suffering from mastitis in a single herd M. Zschöck, J. Sommerhäuser and H. Castaneda 429

Composition of the sterol fraction of caprine milk fat by gas chromatography and mass spectrometry M. J. Fraga, J. Fontecha, L. Lozada, I. Martínez-Castro and M. Juárez 437

Effect of β-lactoglobulin polymorphism on milk-related traits of dairy ewes analysed by a repeated measures design P. Giaccone, L. Distasio, N. P. P. Macciotta, B. Portolano, M. Todaro and A. Cappio-Borlino 443

Action of cardosin A from *Cynara humilis* on ovine and caprine caseinates S. V. Silva and F. X. Malcata 449

Involvement of a pasteurizer in the contamination of milk by *Bacillus cereus* in a commercial dairy plant B. Svensson, Å. Eneroth, J. Brendehaug, G. Molin and A. Christiansson 455

Lipolysis and oxidative stability of soft ripened cheeses containing vegetable oils A. During, S. Mazette, N. Combe and B. Entrssangles . . 461

No. 4 (November 2000)

Original articles

Cortisol and ACTH release in dairy cows in response to machine milking after pretreatment with morphine and naloxone V. Tančin, D. Schams and W.-D. Kraetzl 467

Mechanism of glycine transport in mouse mammary tissue G. Rehan, V. K. Kansal and R. Sharma 475

Treatment of acute *Escherichia coli* mastitis in cows with enrofloxacin: effect on clinical signs and chemiluminescence of circulating neutrophils D. Hoeben, E. Monfardini, C. Burvenich and J. Hamann. . . 485

Role of endotoxin and TNF-α in the pathogenesis of experimentally induced mastitis in periparturient cows D. Hoeben, C. Burvenich, E. Trevisi, G. Bertoni, J. Hamann, R. M. Bruckmaier and J. W. Blum . . 503

Dynamic programming to investigate financial impacts of mastitis control decisions in milk production systems C. Yalcin and A. W. Stott . . 515

Qualitative and quantitative analysis of phosphorylated compounds in milk by means of ^{31}P-NMR J. Belloque, M. A. De La Fuente and M. Ramos 529

Effect of rabbit κ-casein expression on the properties of milk from transgenic mice L. Hiripi, M. Baranyi, L. Szabó, S. Tóth, M.-L. Fontaine, E. Devinoy and Z. Bösze 541

Characterization of a goat whey peptic hydrolysate produced by an ultrafiltration membrane enzymic reactor S. Bordenave, F. Sannier, G. Ricart and J.-M. Piot 551

Role of *Yersinia intermedia* and *Pseudomonas putida* in the development of a fruity off-flavour in pasteurized milk F. B. Whitfield, N. Jensen and K. J. Shaw 561

Contents

Metabolism of lactose and citrate by mutants of *Lactococcus lactis* producing excess carbon dioxide A. El Attar, C. Monnet and G. Corrieu . . 571

Varying influence of the autolysin, *N*-acetyl muramidase, and the cell envelope proteinase on the rate of autolysis of six commercial *Lactococcus lactis* cheese starter bacteria grown in milk S. Govindasamy-Lucey, P. K. Gopal, P. A. Sullivan and C. J. Pillidge 585

Effect of partial hydrolysis with an immobilized proteinase on thermal gelation properties of β-lactoglobulin B. J. Otte, S. B. Lomholt, R. Ipsen and K. B. Qvist 597

^{1}H nuclear magnetic resonance relaxometric characterization of fat and water states in soft and hard cheeses B. Chaland, F. Mariette, P. Marchal and J. De Certaines 609

Short communications

Effect of pasteurization at 76 and 63 °C on the absorption of colostral IgG in calves J. W. Tyler, J. Lakritz, D. E. Hostetler, V. Douglas, D. M. Weaver, B. J. Steevens, J. Holle and J. Denbigh 619

Characterization of peptides produced by the action of psychrotrophic proteinases on κ-casein I. Recio, M. R. García-Risco, M. Ramos and R. López-Fandiño 625

Sequence analysis of porcine polymeric immunoglobulin receptor from mammary epithelial cells present in colostrum H. Kumura, T. Sone, K.-I. Shimazaki and E. Kobayashi 631

Thermal stability of acid proteinases M. K. Walsh and X. Li . . . 637

Method for the selection of *Lactococcus lactis* mutants producing excess carbon dioxide A. El Attar, C. Monnet, F. Aymes and G. Corrieu . . 641
